

SPK

Profile Sander

SPK/8 2LS 4AE

Standard Features:

- ▷ Modular base from 2 to 8 sanding stations
- ▷ Frequency controlled drive
- ▷ One step guide adjustment for fast set-up
- ▷ 360 degree sanding capability
- ▷ Hold-down wheels with concealed springs
- ▷ Automatic double action wear compensation on wheel units
- ▷ Control panel attached to machine base
- ▷ One speed reversible wheel units

The SPK is a compact version of the SPL series and designed to provide simple sanding routines economically.

The K-Series machines are mostly used for light sanding and buffing of wood or MDF profiles as well as de-nibbing stain coats and primers. With selected abrasives the SPK can also buff sealers and UV coatings.

Available Options:

- ▷ Digital positioning readouts
- ▷ Inverter controlled motor on wheels (300 - 1800 RPM)
- ▷ Triangular sanding belts
- ▷ Flat belt sander
- ▷ Two speed reversible wheel units (1600 and 3200 rpm)
